

# Wish<sup>TM</sup> Seating

Kimball<sup>®</sup>Office

# Everything you wish.

Offering the performance and business sense you're looking for, Wish possesses a universal appeal that lies in its more-for-less practicality. It is clean and simple, with biomorphic contours that work harmoniously with the human body. It employs the latest ergonomic controls and material technology, so it offers smoother movement with less effort. Wish's impact on the environment is just as well executed. It is GREENGUARD® certified and more than 90% recyclable.

Wish Seating: Everything you ever wanted, nothing you don't need. All at an unexpectedly affordable price.

# Form favors function.

To create Wish, designers Gardner Klaasen and David Valdiserri removed the extraneous, added all the desired comfort features, and shaped the result in a clean-lined chair that coordinates with any furniture system or business environment.

- A wishbone back frame provides structural definition and clarity of line to the chair's lively profile.
- Smoothly integrated ergonomic adjustments keep the body in perfect balance.
- An innovative neoprene "diaphragm" contributes elasticity for resilient back support.
- Gently curved back and seat cushions envelop and support the body, distributing pressure points for extended sitting comfort.
- A graceful high-arc base ensures stability at all times.

# Inexpensive, but never inadequate.

Engineered and built to the highest quality standards, we designed Wish from the casters up to give you the most chair for the money.

- Wish supports collaborative, individual and task-intensive work settings.
- A comprehensive set of ergonomic features lets people tailor the chair to their size, posture, movement, work style and sitting preference.
- The back and seat are scaled to fit multiple users.
- Environmentally sustainable, Wish is GREENGUARD certified for low emissions and is more than 90% recyclable.
- Wish exceeds ANSI/BIFMA testing standards and carries the Kimball Office Lifetime Warranty.

Armless  
Venetian Sicily

K20BB  
Height Adjustable Arms  
with Fixed Arm Caps  
Venetian Sicily

K20CC  
Height Adjustable Arms  
with 3D Adjustable Arm Caps  
Venetian Sicily

Synchronized-tilt mechanism permits the chair seat and back to articulate proportionately, accommodating posture changes throughout the day, to reduce tension in back muscles.

Height-adjustable lumbar provides continuous lower back support.

# Sit well.

With its extensive comfort adjustments, body friendly curves and contours, and breathable materials, Wish promotes healthy postures and reduces physical stress during extended periods of sitting.

Optional 2-inch sliding seat depth lets sitters with longer legs customize their thigh and back support.

# Kimball® Office. A place that works for you.

To view the fabrics and finishes available on Wish, ask your Kimball Office representative to render it in **e-magine**, our planning, specification and visualization software.
